manage your schedule more effectively using calendar and reminders
version 6.1 updated october 16 2025 learn how to unlock the full potential of
apple's calendar and reminders this book helps you get the most out of
these two apps showing you how to customize them sync data across
devices and share meeting invitations and reminder lists you'll also learn
how to use siri as a shortcut and how to fix common problems in the days
before personal computers and mobile devices we had to rely on paper
calendars and to do lists to help us organize our time and activities now we
have powerful tools like apple's calendar and reminders that are much
more responsive to our needs put an event on your schedule invite others to
join or set yourself an alarm or more than one or keep a list of to do items
add to it and view it on all your apple devices and share your list with family
or friends the sixth edition features complete coverage of macos 26 tahoe
macos 15 sequoia ios 26 ipados 26 ios 18 ipados 18 and watchos 18 and 26
along with the new apple intelligence features on supported devices glenn
guides you through getting to know these incredibly helpful apps including
lesser known but handy features for example did you know that calendar
lets you set an alert that factors in public transportation schedules and time
to get to your starting point so you can leave early enough to catch the train
bus tram or ferry you need and any connections and arrive at your event on
time or that reminders can prompt you to do something not only at a
certain time but also once you've reached a specific destination like the
grocery store if you've never taken the opportunity to explore calendar and
reminders this book will show you how to make them an important part of
your daily routine if you've already been using calendar and reminders you'll
learn how to use them more effectively troubleshoot common problems
and delve deeper into their capabilities learn how to get the best out of
calendar and reminders including how to customize calendar to your liking
from setting time zones to color coding specific calendars create events
making them repeat at regular intervals or on certain dates embed video
links in calendar events for quick launching add reminders from within the
calendar app use the new multi day view in calendar for iphone set up
notifications and alerts so you never miss an event invite people to events or
share your calendar with them share calendars and reminders using icloud
family sharing and assign reminders to a specific person create manage and

share lists in reminders including subtasks and powerful smart lists organize reminder lists into categories and optionally view them in columns designate a list as a grocery list so that items auto sort into supermarket departments set alarms in reminders at a certain time or a certain place use siri to save time when creating events or reminders easily check events and reminders on your mac iphone ipad apple watch or homepod recover deleted reminders within 30 days print a calendar to paper or pdf troubleshoot common problems in calendar and reminders

easily create and enter secure passwords on all your devices version 6.2 updated march 20 2024 annoyed by having to type hard to remember passwords let 1password do the heavy lifting with coverage of 1password version 8 for mac windows linux ios ipados android and apple watch author joe kissell shows you how to generate and enter secure passwords speed up your online shopping and share and sync web logins and other confidential data wrangling your web passwords can be easy and secure thanks to 1password the popular password manager from agilebits in this book joe kissell brings years of real world 1password experience into play to explain not only how to create edit and enter web login data easily but also how to autofill contact and credit card info when shopping online audit your passwords and generate better ones handle two factor authentication 2fa sync data across devices using a hosted 1password account individual family or business and securely share passwords with family members coworkers and friends this fully revised sixth edition covers 1password version 8 for mac windows linux ios ipados android and apple watch it does not include instructions for using earlier versions of 1password topics include meet 1password set your master password explore the various 1password components and decide on your ideal usage strategy what's new in version 8 1password 8 unifies features and interface across platforms and adds important new features but it also includes some controversial changes learn what has changed how to migrate from older versions and what new behaviors you must adjust to master logins in 1password a typical login contains a set of credentials used to sign in to a website find out how to create logins sort them search them tag them and more you'll also find help with editing logins for example changing a password or adding further details understand password security get guidance on what makes for a good password and read joe's important password dos and don'ts a special topic covers how to perform a security audit in order to improve poor passwords quickly go beyond web logins a primary point of 1password is to speed up web logins but 1password can also store and autofill contact information for more than one identity even along with credit card information you'll also find advice on storing ssh keys passwords for password protected files and encrypted disk images confidential files

software licenses scans of important cards or documents and more sync your passwords discover how a hosted 1password account can sync all your data securely across your devices share your passwords learn to store passwords within a family or team hosted account or even with people who don't already use 1password at all you'll also discover the answers to key questions including should i keep using my web browser's autofill feature what about icloud keychain should i use that too do i need the full 1password app or is the browser extension enough how does the universal autofill feature for mac work across browsers and apps what are passkeys and what can 1password do with them how can 1password help me with sites where i sign in with my apple google or facebook account what's the easy way to prevent sensitive information from falling into the wrong hands at a border crossing what can i do quickly to get better password security how can i find and update weak passwords i created long ago what should i do about security questions like the name of my pet how can 1password provide a time based one time password totp
